Mr. David L. Soltz, President
Bloomsburg University
400 East Second Street
Bloomsburg, Pennsylvania, 17815

Dear Mr. Soltz,

It is with great interest that I am applying for a position as Biology Professor at Bloomsburg university. I have a Ph.D. in biology and believe that I would be a great candidate for the job.

I am enthusiastic and prepared to contribute my knowledge to the Biology department of Bloomsburg University to maximize the student learning experience. I will make time for the students and do my best to teach the material in a way that will be understood by them. If students enjoy coming to class, they will WANT to learn, therefore I will make class interesting and enjoyable.

I hope you consider me for a Biology professor at Bloomsburg University. I am looking forward to contact from you so I can further explain in detail how I can contribute to your school. Thank you for your consideration.

Sincerely,

Victoria Feder
